To Whom It May Concern,

On behalf of my company, F and F Food Services, Inc., I would like to strongly recommend SIB Development and their services. SIB reviewed our expenses and found **major savings** that surpassed our expectations completely. We are grateful to SIB for correcting significant billing errors, optimizing our services, and reducing our pricing by such a large margin.

SIB's team proved themselves worthy of their reputation as a skilled and experienced consulting firm, with a history of consistently finding savings for businesses in the quick service restaurant industry.

Sincerely,

Jon Simmons  
Director

Whiteford's Inc.

To whom it may concern,

Whitefords, Inc. is an owner/operator of several restaurant concepts, including KFC, Arby's, and Taco Bell. We signed up for an SIB review because we are always looking for extra savings and we figured we would have nothing to lose.

The team at SIB made us glad to have signed up with them. They were courteous and professional, and ended up saving us tens of thousands of dollars annually. As a fast-food franchisee, I appreciated the fact that SIB took the time to examine the distinct needs of my particular business. They knew to target cost savings in areas like grease trap cleaning and hood cleaning, whose recurring costs have a tendency to add up in this industry.

After experiencing an SIB review, I now understand why SIB came so highly recommended. The experience was very positive for Whitefords, Inc., and I would be happy to serve as a reference to other companies considering an SIB review.

Sincerely,

  
Jake Razor, III
