To Whom It May Concern:

I am writing to thank SIB Development & Consulting for the hard work they completed recently for Brumit Restaurant Group. From the very beginning of the review, SIB was completely professional and very well organized.

They made sure that their work did not interfere with the day-to-day operations of our already busy staff. In addition, they stayed in close contact with us throughout the entire process and continue to handle any questions we may have.

I wouldn't hesitate to recommend SIB Development & Consulting's services to any other business that is looking to make sure their fixed costs are under control.

Thank you,

Whiteford's Inc.
April 10, 2013

To whom it may concern,

Whitefords, Inc. is an owner/operator of several restaurant concepts, including KFC, Arby's, and Taco Bell. We signed up for an SIB review because we are always looking for extra savings and we figured we would have nothing to lose.

904 Montague Avenue
Greenwood, SC 29649

The team at SIB made us glad to have signed up with them. They were courteous and professional, and ended up saving us tens of thousands of dollars annually. As a fast-food franchisee, I appreciated the fact that SIB took the time to examine the distinct needs of my particular business. They knew to target cost savings in areas like grease trap cleaning and hood cleaning, whose recurring costs have a tendency to add up in this industry.

After experiencing an SIB review, I now understand why SIB came so highly recommended. The experience was very positive for Whitefords, Inc., and I would be happy to serve as a reference to other companies considering an SIB review.

Sincerely,

Jake Razor, III
