To Whom It May Concern:

Mercer Street Hospitality engaged SIB Fixed Cost Reduction to perform their audit process for our six restaurant locations in New York and Miami. SIB's service was timely, efficient, and effective, and we have been very satisfied with the experience.

Our restaurants include a variety of concepts, but SIB Fixed Cost Reduction was able to apply their process to each of them, regardless of size, concept, or location. SIB managed to find and fix a billing error, and also negotiated lower rates for our vendor services such as telecom and pest control.

With such a successful track record reducing costs for other restaurants, it was no surprise that SIB was able to perform a successful project for Mercer Street Hospitality, and we would gladly recommend them to other hospitality groups and similar companies.

Sincere regards,
