To whom it may concern:

Desert Venture owns and operates 14 Jack In The Box restaurants throughout Las Vegas. We're continually looking for ways to improve our service to customers, while at the same time, growing the business and increasing profitability.

We engaged SIB Fixed Cost Reduction to review many of our recurring expenses. The process was simple and quick and the team at SIB certainly delivered -- they were able to reduce our expenses in the areas of telecom, waste hauling and utilities to the tune of nearly \$50,000 per year! And all of that without changing vendors.

Needless to say, we're extremely pleased with the results of our review with SIB and we would recommend them to anyone looking to lower their bills.

Sincerely,
