To Whom It May Concern:

With the business environment the way it is today, making sure our costs are as low as possible is a high priority. With their promise that we wouldn't owe anything if they didn't find savings, the decision to engage SIB was easy to make. We provided some information and they took it from there to find the best rates possible, above and beyond what RSCS has been able to accomplish for us.

I would recommend giving SIB an opportunity to improve your bottom line as they have for us.

Sincerely,

Dennis J. Swarthout
Director of Administration
