Dear Sir or Madam:

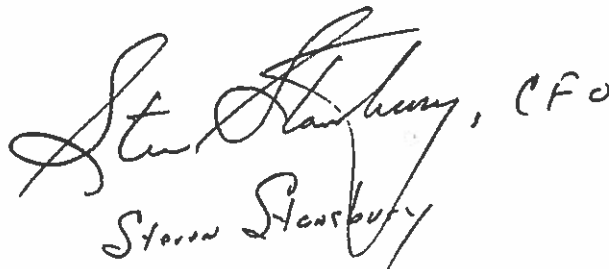

Our company is a Pizza Hut franchisee with 100+ locations in seven states. We are active members of the *Yum! Brands* system and try to stay abreast of the latest trends and developments in the quick service restaurant industry. We came across SIB Development & Consulting at a trade show and we were intrigued by their business model and service offerings.

SIB's risk-free contingency-based payment structure appealed to us, as did the breadth of spending categories they were equipped to review. SIB was successful in correcting past billing errors as well as negotiating better rates for us going forward.

As a *Yum! Brands* operator, we already benefit from group purchasing rates and plans for a variety of vendor services. SIB helped us make the most of those plans by checking to make sure we were getting the correct rates from our vendors. They also helped us negotiate with vendors who are not part of the group purchasing program.

Our overall experience with SIB has been very positive and we would recommend them to any other quick service restaurant franchisees in the *Yum! Brands* system.

Sincerely yours,

 Steven Stansbury, CFO
